

Smart 2D Video-Based Presentation Attack Database (Smart2D-PAD) License Agreement

Smart 2D video-based face presentation attack (i.e., replay attack) database contains the videos collected using image intensity transforms. The prime focus of the database is to check the vulnerabilities of the PAD algorithms under different factors such as brightness of the attacking medium. The database is publicly available only for research purpose.

Consent

The researcher(s) agrees to the following conditions on the Smart 2D Video-Based Face Presentation Attack (Smart2D-PAD) Database:

1. Smart2D-PAD Database is a valuable intellectual property.
2. The researcher(s) shall have no rights concerning the Database or any portion thereof and shall not use the Database except as expressly outlined in this Agreement.
3. Subject to the terms and conditions of this agreement, the Smart2D-PAD Database is available for non-commercial research use only, a royalty-free, nonexclusive, non-transferable, license subject to the following conditions:
 - 3.1 The Database is only for the non-commercial research use and available to those direct research colleagues who belong to the same research institution and have adhered to the terms of this license.
 - 3.2 The Database will not be copied nor distributed in any form other than for backup.
 - 3.3 The Database will only be used for research purposes and will not be used nor included in commercial applications in any way.
 - 3.4 The database is only available for face presentation attack detection research only. The modification of the original database images in any form that can make the subject embarrass or uncomfortable is not allowed.
 - 3.5 Any work made public, whatever the style, based directly or indirectly on any part of the

Database will include the following **reference**:
