

**LICENSE AGREEMENT
FOR NON-COMMERCIAL RESEARCH USE OF
Social-Media Posted Finger-selfie (SMPF) Database**

Introduction

The primary focus of the biometrics research we perform is to develop algorithms, techniques and tools for automatic recognition of humans. As a part of a research work, we are involved in forming this Social-Media Posted Finger-selfie (SMPF) Database. The Social-Media Posted Finger-selfie (SMPF) Database enables researches in developing, testing and publishing recognition and adversarial learning related algorithms.

Consent

The researcher(s) agrees to the following conditions on the Social-Media Posted Finger-selfie (SMPF) Database:

1. Social-Media Posted Finger-selfie (SMPF) Database is a valuable intellectual property.
2. The researcher(s) shall have no rights with respect to the Database or any portion thereof and shall not use the Database except as expressly set forth in this Agreement.
3. Subject to the terms and conditions of this agreement, the Social-Media Posted Finger-selfie Database is available for non-commercial research use only, a royalty-free, non-exclusive, non-transferable, license subject to the following conditions:
 - 3.1. The Database is only for the non-commercial research use and available to those direct research colleagues who belong to the same research institution and have adhered to the terms of this license.
 - 3.2. The Database will not be copied nor distributed in any form other than for backup.
 - 3.3. The Database will only be used for research purposes and will not be used nor included in commercial applications in any form.
 - 3.4. The royalty for the original images (link to which are provided) shall solely remain with the uploading user, or, as stated in Instagram policies for public posts.
 - 3.5. Any work made public, whatever the form, based directly or indirectly on any part of the Database will include the following reference:
 - i) A. Malhotra, S. Chhabra, M. Vatsa, and R. Singh, On Privacy Preserving Anonymization of Finger-selfies, In Proceedings of IEEE Computer Vision and Pattern Recognition Workshop on Fair, Data Efficient and Trusted Computer Vision, 2020.
 - ii) A. Sankaran, A. Malhotra, A. Mittal, M. Vatsa, and R. Singh, On Smartphone Camera based Fingerphoto Authentication, In Proceedings of IEEE International Conference on Biometrics: Theory, Applications and Systems, 2015.

I hereby accept to adhere by the terms and conditions of this license agreement.
