West Virginia University

WVU Mobile Iris Spoofing Dataset Release Agreement

Requestor Name: _____

Introduction

WVU Mobile Iris Spoofing Dataset *Collection* project is funded by the Center for Identification Technology Research (CITeR) at West Virginia University (WVU) and the National Science Foundation. The goal of this project is to develop new techniques, technology and algorithms for automatic recognition and iris liveness detection. Part of this project is the effort to collect the biometric features and store them as part of WVU Mobile Iris Spoofing Dataset. This biometric dataset is meant to aid researchers in their work, to develop, train, test and evaluate the iris liveness detection algorithms.

Release of the database

Dataset records are made available to researchers other than those specifically listed on the West Virginia University IRB Protocol Statement, only after the receipt of a completed and signed dataset release agreement. All the records are available on a case-by-case basis. Dataset records are released via an Internet site, CD or other media. All requests for the dataset are submitted to the Principal Investigator. By signing this agreement the requestor agrees to comply with the restrictions listed below and use the data consistent with the terms of the WVU Mobile Iris Spoofing Dataset Collection Subject Release. In addition, it is the responsibility of the individual executing this agreement that the data being provided be handled and used pursuant to the rules and regulations of their institution's IRB. Any failure to conform to these restrictions results in a denied access to the dataset.

Consent

Restrictions for use of WVU Mobile Iris Spoofing Dataset:

1. Requests for the mobile iris spoofing dataset: All requests for the biometric dataset records are submitted to the WVU Principal Investigator.

2. Redistribution: Without prior approval from WVU Principal Investigator, the entire or part of the biometric dataset will not be further distributed, published, copied or disseminated in any way or form, either for profit or not. This refers also to further distribution of the dataset records to any other facility or organizational unit, other than the one mentioned in the request.

3. Modification and Commercial Use: Without prior approval from the WVU, the WVU Mobile Iris Spoofing Dataset Collection, in whole or in part, may not be modified or used for commercial purposes. The license granted herein is specifically for the internal research purposes of Researcher, and

Researcher shall not duplicate or use the disclosed WVU Mobile Iris Spoofing Dataset Collection, its content, or any seal, logo, mark, or phrase associated with or owned by WVU, to manufacture, promote, or sell products or technologies (or part of it) either directly or indirectly for commercialization or any other direct for-profit purpose without the prior written permission of WVU.

4. Publication Requirements: Those seeking to include renderings of more than 10 images from WVU Mobile Iris Spoofing Dataset or more than 5 images belonging to the same subject in reports, papers, and other documents to be published or released must first obtain approval in writing from the WVU Principal Investigator. In no case should the iris images be used in a way that could cause the original subject embarrassment or mental anguish. Under no circumstances, images of subjects who have not provided consent for publishing their images, should be published as per the WVU Mobile Iris Spoofing Dataset Subject Release Agreement.

5. Citation: All documents and papers that report on research that uses the WVU Mobile Iris Spoofing Dataset will acknowledge the use of the dataset by including an appropriate citation that will be provided upon request by the WVU Principal Investigator.

6. Signature: The Database Release Agreement has to be signed by the requestor's supervisor.

7. Indemnification: Researchers agree to indemnify, defend, and hold harmless the West Virginia University, and its Board of Governors, officers, employees, and agents, individually and collectively, from any and all losses, expenses, damages, demands and/or claims based upon any such injury or damage (real or alleged) and shall pay all damages, claims, judgments or expenses resulting from Researcher's use of the WVU Mobile Iris Spoofing Dataset Collection.
